

DVD Rental Company ERD Model

Assumptions: Each staff member works at exactly one branch at a time and may be reassigned later. Each branch has exactly one manager, who must be a staff member. Each DVD copy belongs to one branch and contains one movie. Members may register at multiple branches. Registration dates therefore belong to branch_member. Rental cost is determined by the combination of branch and movie and is stored in branch_movie. Historical staff or DVD transfers are not tracked.

Travel Consulting Company ERD Model

Assumptions: Team names and region names are unique. Each team is assigned to exactly one region at a time, while a region may be handled by multiple teams. Consultants must belong to at least one team and may temporarily belong to multiple teams. Assignment history is not tracked. consultantId, customerId, and callId were added as identifiers required to implement the entities and relationships.
